

Radio Amateurs Plan Relay Demonstration

To demonstrate how it could be of service in an emergency, the mobile wing of the Milwaukee Radio Amateurs' club Monday night relayed a message from the Illinois state line to Mitchell park in three minutes.

Twelve cars equipped with radio equipment similar to that in police cars were stationed along the 54

ada will have the same.

mile route for the disaster drill project. Transmission was found to be so good, however, that two of the relay points were bypassed.

The mobile unit is being trained to provide emergency communication should regular channels be wiped out by bombing or other disaster.
